

Working Paper 1.1

Committee : World Health Organisation

Topic : Countermeasures to the spread of MERS

Signatures : France, U.S.A, U.K, Canada, China

The WHO,

Reaffirming its guidelines for the investigation of MERS-CoV (July 2013), International Health Regulations (March 2012), Case-control study to assess potential risk factors related to human illness caused by MERS-CoV (Jul 3rd, 2013), which contribute to a comprehensive framework for the countermeasures to the spread of MERS-CoV,

Deeply convinced that health care rights, on the list of essential human rights in the first International Human Rights Agreement- 1948 Universal Declaration of Human Rights adopted by the UNGA, should be guaranteed globally especially in the infected zones of MERS-CoV,

Recalling the valuable contribution of relevant regional and subregional organisations and the acts for the control of the outbreak of MERS-CoV, particularly in R.O.K and Saudi Arabia,

Revising the implementation of the guidelines for the investigation of MERS-CoV, Case Control studies to assess the risk factors related to MERS-CoV,

Expressing deep concern about the supportive cure for the infected patients in multiple countries,

Urging all countries to sign and ratify the above conventions mentioned and other instruments of the framework to ensure the establishment of the special office of encountering MERS-CoV,

Welcoming all countries to improve the development of encountering MERS-CoV,

Fully aware that the encountering the outbreak of MERS-CoV is of great importance to all human beings,

To act under the guidance of UN, as well as implementing the Universal Declaration of Human Rights,

Proposes to setup a WHO office and news system to supervise, arrange the aid provided by different countries,
To wide-spread the information and knowledge from expert teams of all member states,
To arrange the aid supplement according to the needs of different countries,

Decides to open to financial info to the public so as to make the financial aid transparent,

Recommends establishing office headquarter in European Countries,

Calls upon all developed countries to provide considerable amount of financial support to out-break countries on the requirements of Medical Facilities,
Further Research and Investigation,

Further invites NGOs from all over the world to participate in the counter measurements of MERS-CoV outbreaks,

Requires the R.O.K, P.R.C and Saudi Arabia gov. to corporate with UN member states in order to prevent the further outbreak of MERS-CoV,

On the condition that no more influenza breaks out, WHO suggests countries to do further research and investigation on the cure of MERS-CoV and influenza,

Under the circumstances that the current outbreaks will be relieved, signatories suggest reducing aids in a slow and steady way,
To focus more on the further medical development,

To keep an adequate amount of monitor on the influenza diseases,

Considers the fact that some developing countries are overwhelmed by the increasing inflow of suspect cases, any developed countries especially E.U countries that are willing to accept a minor amount of patients as to ensure a better medic condition,

Reiterates its request to the Secretary-General to continue to ensure that in all his reports on MERS-CoV outbreak is included as a specific aspect of the report,

Decides to remain actively seized of the issue.
